REPORT OF THE PROGRAMME

Date :04.03.2019

- Name of the programme** : **Research and Development of Composite Materials**
- Beneficiaries** : III year and IV-year Mech. students
- No of participants** : 144
- Date & Time** : 01.03.2019 (Friday) - 2.00 p.m to 4.30 p.m
- Resource Person** : Dr.A.Athi Jayamani.
Assistant Professor,
Alagappa Chettiar College of Engineering &
Technology, Karaikudi
- Programme Coordinator** : Dr.S.Nagarajan
Professor – Mech.
R& D Coordinator

Pandian Saraswathi Yadav Engineering College organized seminar on Recent trends in Heat transfer in Industrial Applications for **III year and IV-year Mech. students** on Date (**1st March 2019**) in college premises. The session commenced with the welcome address. Different types metals, non metals , advanced composite materials were fundamentally explained. He explained with introduction of Research development related to Manufacturing Engineering which are using Composite materials. Also, shared his valuable knowledge to students how the composite materials are being used in Industrial applications so as to reduce wear tear of Industrial instruments. Then he finally demonstrated some fabrication techniques of new advanced composite materials.

Students are attending the seminar

Respected Sir,

Sub: Request permission to conduct a seminar on “**Antennas for Biosensor Application- Research**” for ECE III & IV students of our institute- reg.

It is pleasure to inform you that the Research and Development cell has planned to conduct a seminar on “**Antennas for Biosensor Application- Research**” at 9.30a.m to 1.00 p.m on 13th February,2019 with the aim of encouraging an individual to familiarize with the field of Antenna device modeling holds significant importance in the realm of electronics and Communication engineering. It provides better understanding the behavior and characteristics of Antennas devices through accurate modeling is essential for their design, analysis, and optimization. Therefore, organizing a seminar focused on this topic will greatly benefit our students and faculty members. Through this programme the students can practice techniques to sharpen focus towards their reaching goal so we kindly request you to grant us permission to conduct the programme. The schedule and proposal of the programme is enclosed with this letter for your kind perusal and permission. Kindly do the needful.

Thanking You,

Yours sincerely,

Mr.S.Manikandan,

R&D Coordinator.

CIRCULAR

It is hereby informed that our college is going to conduct a programme on 13.02.2019 in the topic of “Antennas for Biosensor Application- Research” through R&D Cell. Through this program the students will develop new and emerging areas in engineering research and motivate faculty and students to carryout research in those areas and help them to identify the funding agencies to support their research or projects. All ECE III and IV year students and staffmembers are expected to give their fullest co-operation towards the smooth conduction of programme.

The Research and Development department of Pandian Saraswathi Yadav Engineering College organized a seminar on **Antennas for Biosensor Application- Research** on 13th February, 2019. The session was led by Mr.V.Prasannan, Assistant Professor, serving as the keynote speaker for the event. The session commenced with the welcome address, and an introductory session that provided an overview of Antenna device modeling and its significance in modern electronics. It elucidated the role of device models in simulating the behavior of Antenna devices under various operating conditions. Subsequent sessions delved into the various aspects of Antennas device modeling: Fundamentals of Device Physics, Types of Device Models, Simulation Techniques and Applications and Case Studies. The Key Takeaways: 1. Semiconductor device modeling plays a crucial role in the design, analysis, and optimization of electronic circuits. 2. Different types of device models offer varying levels of accuracy and computational efficiency, depending on the specific requirements of the application. 3. Advancements in simulation techniques and computational resources have enabled increasingly complex and realistic models to be used in Antenna device design.

Programme Co-ordinator : Dr K.Rajasekaran.AP/CSE & R&D Co-ordinator

The Research and Development department of Pandian Saraswathi Yadav Engineering College organized a seminar on **Research for Challenges in Android Development** on 4th October,2018. The session was led by Dr.M.Indra devi, Professor, serving as the keynote speaker for the event. The session commenced with the welcome address, and an introductory session that provided an overview of challenges in Android development is a great way to educate developers about the complexities and hurdles they might face in creating robust Android applications. Here's a suggested outline for the seminar content.1.Understanding the Android Ecosystem 2.Common Challenges in Android Development 3.Dealing with Platform Limitations 4.Testing and Debugging Strategies 5.Best Practices and Tips .The seminar on & Challenges in Android Development provided a comprehensive platform for researchers, engineers, and students to exchange knowledge, insights, and best practices in this specialized field. The challenges of Android development, it's clear that building robust and successful Android applications requires navigating through various hurdles. We've explored the intricacies of the Android ecosystem, from managing fragmentation to optimizing performance and ensuring security.

Respected Sir,

Sub: Request permission to conduct a seminar on” **Cutting-Edge Research in Medical Image Analysis using Machine Learning** ” for ECE III & IV students of our institute- reg.

It is pleasure to inform you that the Research and Development cell has planned to conduct a-seminar on “**Cutting-Edge Research in Medical Image Analysis using Machine Learning**” at 9.30a.m to 1.00 p.m on 03rd September,2018 with the aim of encouraging an individual to familiarize with the field of Image Processing modeling holds significant importance in the realm of Machine learning engineering. It provides better understanding the behavior and characteristics of Image processing devices through accurate modeling is essential for their design, analysis, and optimization. Therefore, organizing a seminar focused on this topic will greatly benefit our students and faculty members. Through this programme the students can practice techniques to sharpen focus towards their reaching goal so we kindly request you to grant us permission to conduct the programme. The schedule and proposal of the programme is enclosed with this letter for your kind perusal and permission. Kindly do the needful.

Thanking You,

Yours sincerely,

The Research and Development department of Pandian Saraswathi Yadav Engineering College organized a seminar on **Cutting-Edge Research in Medical Image Analysis using Machine Learning** on 3rd September, 2018. The session was led by Ms.V.Sindhu, Research Co-ordinator, serving as the keynote speaker for the event. The session commenced with the welcome address, and an introductory session that provided an overview of Image processing design and its significance in modern electronics. It elucidated the role of device models in simulating the behavior of image processing devices under various operating conditions. Subsequent sessions delved into the various aspects of machine learning modeling: Fundamentals of Device Physics, Types of Device Models, Simulation Techniques and Applications and Case Studies. The Key Takeaways: 1. Image processing plays a crucial role in the design, analysis, and optimization of electronic circuits. 2. Different types of device models offer varying levels of accuracy and computational efficiency, depending on the specific requirements of the application. 3. Advancements in simulation techniques and computational resources have enabled increasingly complex and realistic models to be used in image processing device design.

Pandian Saraswathi Yadav Engineering College organized seminar on Recent trends in Heat transfer in Industrial Applications for III year and IV year Mech. students on Date (26th July 2018) in college premises. The session commenced with the welcome address. He started with introduction of Research development related to thermal Engineering with and shared his valuable knowledge to students about recent scenario on Industrial applications and specifically in Heat Transfer equipment. He explained the various types of heat transfer techniques methods and also what are the recent trends. How the materials are affected by Heat intensity. Then he finally highlighted some techniques to control the transfer of heat in industrial equipment.
