Respected Sir,

Sub: Request permission to conduct a seminar on Innovation and advanced machining processes for industries **for all Mech. students** of our institute- reg.

It is pleasure to inform you that the Research and Development cell has planned to conduct a seminar on "Innovation and advanced machining processes for industries." **at 9.30 am to 1.00 pm on 18th March 2020** with the aim of knowledge in Innovation and to know what are the Recent Advanced manufacturing techniques, machining methods, additive manufacturing, CNC machining, and automation, emphasizing efficiency and precision. students gained insights into 3D printing, and adaptive control systems, fostering competitiveness in global markets. Through this program the students can understand the methods which are to fabricate mechanical components. So we kindly request you to grant us permission to conduct the program. The schedule and proposal of the program is enclosed with this letter for your kind perusal and permission. Kindly do the needful.

Thanking You,

Yours sincerely,

CIRCULAR

It is hereby informed that our college is going to conduct a programme on 18.03.2020 in the topic of " Innovation and advanced machining processes for industries " through R&D Cell. Through this programme the students will be able to think with creativeness, get aware on new innovations, and Advanced manufacturing in engineering industry and motive faculty and students to carryout research in those areas and help them to identify the funding agencies to support their research or projects. II year,III year and IV year Mech. students and staff members are expected to give their fullest co-operation towards the smooth conduction of programme.

Pandian Saraswathi Yadav Engineering College organized seminar on Innovation and advanced machining processes for industries for all **Mech. students** on date (**18th March 2020**) in college campus. The session commenced with the welcome address. He started with introduction of Research development related to new innovations , Advanced Manufacturing Engineering. He shared his valuable knowledge to students about new advanced technology situation on Industrial applications and specifically in manufacturing methods. The Guest faculty delivered into additive manufacturing, CNC machining, and automation, emphasizing efficiency and precision. students gained insights into 3D printing, and adaptive control systems, fostering competitiveness in global markets. Then, he finally highlighted some techniques to control the transfer of heat in industrial equipment.

CIRCULAR

It is hereby informed that our college is going to conduct online webinar on 12.03.2020 in the topic of "Career Opportunity for an entrepreneurship in Construction Industries" Through this program the students will develop new and emerging areas in engineering research and motive faculty and students to carryout research in those areas and help them to identify the funding agencies to support their research or projects. Final Year Civil students and staff members are expected to give their fullest co-operation towards the smooth conduction of program.

To

The Principal,
Pandian Saraswathi Yadav Engineering College,
Arasanoor-630561.

Respected Sir,

Sub: Request permission to conduct a seminar on "Research opportunities in Embedded system Design" for ECE III & IV students of our institute- reg.

It is pleasure to inform you that the Research and Development cell has planned to conduct a seminar on "Research opportunities in Embedded system Design" at 9.30a.m to 1.00 p.m on 2nd March 2020 with the aim of encouraging an individual to familiarize with the field of Embedded system Designing holds significant importance in the realm of Embedded system engineering. It provides better understanding the behavior and characteristics of embedded system through accurate modeling is essential for their design, analysis, and optimization. Therefore, organizing a seminar focused on this topic will greatly benefit our students and faculty members. Through this programme the students can practice techniques to sharpen focus towards their reaching goal so we kindly request you to grant us permission to conduct the programme. The schedule and proposal of the programme is enclosed with this letter for your kind perusal and permission. Kindly do the needful.

Thanking You,

Yours sincerely,

Mr.S.Manikandan,
R&D Coordinator.

The Research and Development department of Pandian Saraswathi Yadav Engineering College organized a seminar on **Research opportunities in Embedded system Design** on 2nd March ,2020. The session was led by Mr.S.Shanmugam, Research Director, serving as the keynote speaker for the event. The session commenced with the welcome address, and an introductory session that provided an overview of Embedded design and its significance in modern electronics. It elucidated the role of device models in simulating the behavior of Embedded system under various operating conditions. Subsequent sessions delved into the various aspects of Embedded system designing: Fundamentals of Device Physics, Types of Device Models, Simulation Techniques and Applications and Case Studies. The Key Takeaways:1. Embedded system modeling plays a crucial role in the design, analysis, and optimization of electronic circuits.2.Different types of device models offer varying levels of accuracy and computational efficiency, depending on the specific requirements of the application.

Pandian Saraswathi Yadav Engineering College organized **One day Seminar on Research Methodology** for final year Civil students on **Date (13th February 2020)** in college premises. The session commenced with the welcome address. He gradually delivered his valuable knowledge to students about the Objective of Research Types of Research; Research Approaches, Steps in Research Process; Criteria of Good Research; Ethics in Research. Research Formulation and Literature Review: Problem Definition and Formulation; Literature Review; Characteristics of Good Research Question; Literature Review Process. More over the proposed model explains major criteria to be used at each R&D development process step to ensure commercialization capability exists.

Respected Sir,

Sub: Request permission to conduct a seminar on **Research and Development for Cloud Computing Service Model For CSE,II, III & IV students** of our institute- reg.

It is pleasure to inform you that the Research and Development cell has planned to conduct a seminar on **"Research and Development for Cloud Computing Service Model"** at **9.30a.m to 1.00 p.m on 09th September,2019** This program aims to provide valuable insights into the latest trends and technologies shaping the field of cloud computing and its relevance in today's digital landscape. The program will be conducted by experienced professionals and experts in the field of cloud computing, ensuring that participants gain valuable knowledge and insights that can be applied both academically and professionally. will provide students and faculty with a deeper understanding of cloud computing technologies. The schedule and proposal of the programme is enclosed with this letter for your kind perusal and permission, Kindly do the needful.

Thanking You, Yours sincerely,

The Research and Development department of Pandian Saraswathi Yadav Engineering College organized a seminar on **Research and Development for Cloud Computing Service Model** on 09.09.2019. The session was led by Dr.N.Balaji, Professor, serving as the keynote speaker for the event. The session commenced with the welcome address, and an introductory session that provided an overview of Cloud computing has revolutionized the way businesses and individuals access and manage computing resources. The seminar on “**Research and Development for Cloud Computing Service Model**” provided a comprehensive platform for researchers, engineers, and students to exchange knowledge, insights, and best practices in this specialized field. It provides a comprehensive overview of the three primary cloud computing service models, highlighting their key features, use cases, and benefits. By understanding these service models, organizations can make informed decisions when adopting cloud computing solutions to meet their business requirements.
