Pandian Saraswathi Yadav Engineering College organized seminar on Quality Measurement using High Technology Instruments, for all Mech. students on date (9th Mar 2021) in college campus. The session commenced with the welcome address. He started with introduction of Measuring Instruments related to Quality of products, Quality assurance, Inspection procedures employing manufacturing processes. He explained the importance of Quality management. The session emphasized the critical role of quality measurement in ensuring customer satisfaction, compliance with regulatory standards, and overall business success. Experts elaborated on their principles of operation, capabilities, and advantages over traditional measurement methods.

The seminar concluded with hands-on demonstrations where participants had the opportunity to interact with the latest high technology instruments showcased by leading manufacturers. They gained practical insights into their functionality and usability. The seminar on Quality Measurement Using High Technology Instruments proved to be a valuable platform for professionals seeking to enhance their understanding of modern quality measurement techniques.

Respected Sir,

Sub: Request permission to conduct a seminar on Operational Research and Optimization Techniques for all Mech. students of our institute- reg.

It is pleasure to inform you that the Research and Development cell has planned to conduct a seminar on "Operational Research and Optimization Techniques" at 9.30 am to 1.00 pm on 15th Feb 2021 with the aim of knowledge in Operational Research related to Industrial Engineering, new innovations in machine layouts, Optimization in Manufacturing processes. Operational research (OR) and optimization techniques are essential tools in modern problem-solving across various industries. OR involves the application of advanced analytical methods to make better decisions. Optimization techniques, of OR, aim to find the best solution from all feasible solutions. Through this program the students can understand the methods which are to fabricate mechanical components.

So we kindly request you to grant us permission to conduct the program. The schedule and proposal of the program is enclosed with this letter for your kind perusal and permission. Kindly do the needful.

Thanking You,

Yours sincerely,

Pandian Saraswathi Yadav Engineering College organized seminar on Seminar Operational Research and Optimization Techniques for all **Mech. students** on date **(15th Feb,2021)** in college campus. The session commenced with the welcome address. He started with introduction of Operational Research related to Industrial Engineering, new innovations in machine layouts, Optimization in Manufacturing processes. He shared his valuable insights to students about new advanced algorithms for optimization and specifically in mechanical manufacturing methods. The Guest faculty delivered into conventional optimization techniques, advanced algorithms to increase the productivity of production and also plant processes. He explained how Operational Research and optimization techniques minimize the costs, maximize efficiency, and improve decision-making processes in industry. Then, he finally highlighted important algorithms to control the fields like supply chain management, transportation, finance, healthcare, and telecommunications, enhancing productivity and competitiveness.

REPORT OF THE PROGRAMME

Date:17.1.2021

Name of the programme : **Research for Fundamental of Automation Testing**
Beneficiaries : B.E Students [CSE II, III & IV YEAR]
No of participants : 106
Date & Time : 17.01.2021(TUESDAY)& (9.30a.m to 1.00 p.m)
Resource Person : Dr.A.M. Abirami,
Associate Professor,
Thiagarajar College of Engineering,
Madurai.

Programme Co-ordinator : K.Rajasekaran AP/CSE & R&D Co-ordinator

The Research and Development department of Pandian Saraswathi Yadav Engineering College organized a seminar on **Research for Fundamental of Automation Testing** on 17th January ,2021. The session was led by Dr.A.M. Abirami, Associate Professor, serving as the keynote speaker for the event. The session commenced with the welcome address, and an introductory session that provided an the fundamentals of automation theory would typically involve outlining key concepts, discussing their significance, and providing examples or illustrations where applicable. The seminar on **“Research for Fundamental of Automation Testing”** provided a comprehensive platform for researchers, engineers, and students to exchange knowledge, insights, and best practices in this specialized field. It provides a structured approach to discussing the fundamentals of automation theory. You can further elaborate on each section by providing explanations, examples, diagrams, and references to relevant literature or research. Additionally, you may include data on industry trends, adoption rates, or case studies to support your points. automation theory plays a crucial role in advancing technology and improving efficiency across various industries. Understanding its fundamentals is essential for designing, implementing, and maintaining effective automation systems in the modern world.
