Respected Sir,

Sub: Request permission to conduct a seminar on **Enhancing VLSI Research with photonic integrated circuits for ECE II, III & IV students** of our institute- reg.

It is pleasure to inform you that the Research and Development cell has planned to conduct a seminar on "Enhancing VLSI Research with photonic integrated circuits" at 9.30a.m to 1.00 p.m on 26th April 2022 with the aim of encouraging an individual to familiarize with the fundamentals of photonic integrated circuits (PICs) and their applications in VLSI design and to explore the potential advantages of integrating photonics with VLSI, including higher data rates, lower power consumption, and improved performance. It provides a platform for students to interact with expert in the field and gain insights into emerging trends and opportunities. Through this programme the students can practice techniques to sharpen focus towards their reaching goal so we kindly request you to grant us permission to conduct the programme. The schedule and proposal of the programme is enclosed with this letter for your kind perusal and permission. Kindly do the needful.

Thanking You,

Yours sincerely,

Dr.S.Regina,

The Research and Development department of Pandian Saraswathi Yadav Engineering College organized a seminar on **Enhancing VLSI Research with photonic integrated circuits** on April 26th, 2022. The session was led by Dr.K.Padmanaban, Associate Professor, serving as the keynote speaker for the event. The session commenced with the welcome address, followed by an overview of VLSI and photonic integrated circuits (PICs) by keynote speaker. He highlighted the significance of merging these two technologies to overcome the limitations of traditional electronic circuits in terms of speed, bandwidth, and power consumption. Subsequent sessions delved into the various aspects of enhancing VLSI with PICs: Fundamentals of Photonic Integration, Applications in VLSI, Challenges and Solutions and Future Trends and Opportunities. The Key Takeaways are: 1.Photonic integrated circuits offer significant advantages over traditional electronic circuits, including higher data rates, lower power consumption, and improved reliability.2.Collaborative efforts between academia and industry are essential to advance research and development in the field of VLSI with PICs.

Respected Sir,

Sub: Request permission to conduct a seminar on Innovation in Powder Metallurgy Products and its Machining processes for all Mech. students of our institute- reg.

It is pleasure to inform you that the Research and Development cell has planned to conduct a seminar on "Innovation in Powder Metallurgy Products and its Machining processes" at 2.00 p.m to 4.30 p.m on 23rd Mar 2022 with the aim of providing knowledge in recent innovations in powder metallurgy products, machining processes, powder metallurgy components and industrial components. To educate students about the principles and applications of powder metallurgy in modern manufacturing. To provide insights into machining processes, optimized for powder metallurgy components. To inspire students to pursue careers in materials science, manufacturing, and related fields. We believe that this event will greatly benefit our students, faculty members, and industry professionals by enhancing their understanding of manufacturing techniques in powder metallurgy.

So we kindly request you to grant us permission to conduct the program. The schedule and proposal of the program is enclosed with this letter for your kind perusal and permission. Kindly do the needful.

Pandian Saraswathi Yadav Engineering College organized seminar on Innovation in Powder Metallurgy Products and its Machining processes, for all Mech. students on date (23rd Mar 2022) in college campus. The session commenced with the welcome address. He started with introduction of Industrial products related to Powder metallurgy products, machining methods involved in manufacturing processes. The seminar aimed to provide insights into the latest advancements in powder metallurgy techniques, product innovations, and machining processes. Powder metallurgy has emerged as a key manufacturing method, offering numerous advantages such as cost-effectiveness, design flexibility, and the ability to produce complex shapes with enhanced properties. He explained concept of powder metallurgy techniques including powder compaction, sintering, and secondary operations such as machining and heat treatment. He explained advantages of Powder metallurgy over conventional manufacturing methods were discussed, emphasizing its suitability for producing high-performance components. This session focused on machining processes such as milling, turning, and grinding, tailored specifically for PM components. Students understood practical insights into their functionality and usability. The seminar on Powder Metallurgy proved to be a valuable platform for professionals seeking to enhance their understanding of modern manufacturing methods.

It is pleasure to inform you that the Research and Development cell has planned to conduct a seminar on **"Innovative methodology for Data Analytics"** at 9.30a.m to 1.00 p.m on 06th october,2021 with the aim of encouraging an individual to familiarize with the field of I hope this letter finds you well. I am writing to formally request permission to conduct a data analytics seminar at [PSYEC]. As a strong advocate for fostering innovation and preparing students for the challenges of the future, I am enthusiastic about the opportunity to introduce our students to the dynamic field of data analytics. We kindly request your support and approval for the implementation of the Data Analytics Program. The objective of this seminar is to provide students with a comprehensive understanding of data analytics principles, techniques, and applications. In today's digital age, data analytics plays a pivotal role in driving strategic decision-making and generating actionable insights across industries. The schedule and proposal of the programme is enclosed with this letter for your kind perusal and permission. Kindly do the needful.

Thanking You,

Yours sincerely,

CIRCULAR

It is hereby informed that our college is going to conduct a programme on 07.09.2021 in the topic of “**Semiconductor Device Modeling : Research Methodology**” through R&D Cell. Through this program the students will develop new and emerging areas in engineering research and motivate faculty and students to carry out research in those areas and help them to identify the funding agencies to support their research or projects. All ECE year students and staff members are expected to give their fullest co-operation towards the smooth conduction of programme.

REPORT OF THE PROGRAMME

Date : 07.09.2021

Name of the programme : Semiconductor Device Modeling : Research Methodology
Beneficiaries : B.E Students [ECE II, III & IV YEAR]
No of participants : 61
Date & Time : 07.09.2021 (Tuesday) & (9.30a.m to 1.00 p.m)
Resource Person : Dr.M.Karthigai Pandian
Professor,
Sri Krishna College of Technology

The Research and Development department of Pandian Saraswathi Yadav Engineering College organized a seminar on **Semiconductor Device Modeling : Research Methodology** on 7th September,2021. The session was led by Dr.M.Karthigai Pandian, Professor, serving as the keynote speaker for the event. The session commenced with the welcome address, and an introductory session that provided an overview of semiconductor device modeling and its significance in modern electronics. It elucidated the role of device models in simulating the behavior of semiconductor devices under various operating conditions. Subsequent sessions delved into the various aspects of semiconductor device modeling: Fundamentals of Device Physics, Types of Device Models, Simulation Techniques and Applications and Case Studies. The Key Takeaways:1. Semiconductor device modeling plays a crucial role in the design, analysis, and optimization of electronic circuits.2.Different types of device models offer varying levels of accuracy and computational efficiency, depending on the specific requirements of the application.3.Advancements in simulation techniques and computational resources have enabled increasingly complex and realistic models to be used in semiconductor device design.

Respected Sir;

Sub: Request permission to conduct a "TOWARDS THE MISSION TO BUILD 10K RURAL ENTREPRENEURS" for B.E, ECE students of our institute (2021-2022Batch)- reg.

It is pleasure to inform you that the Research and Development cell has planned to conduct a seminar on "TOWARDS THE MISSION TO BUILD 10K RURAL ENTREPRENEURS" at 10.00a.m to 12.30p.m on 13th August 2021 with the aim of equipping students with practical strategies and techniques to enhance their problem-solving skills and foster creativity in tackling challenges they encounter in their personal and professional lives. So we kindly request you to grant us permission to conduct the programme. The schedule and proposal of the programme is enclosed with this letter for your kind perusal and permission. Kindly do the needful.

Thanking You,

Yours sincerely,

Mr.R.Saravanan,
