Pandian Saraswathi Yadav Engineering College organized workshop on "Innovation" in Industries, for selected students on date (9 Nov 2022) in PSY Engineering College premises, Sivagangai. The session started with the welcome address. A Build Club is to be launched for our students in our college. The workshop commenced with an introduction to entrepreneurship, highlighting its significance in driving innovation and economic growth. The workshop on Innovation in Industries was a highly engaging and insightful event that succeeded in achieving its objectives of inspiring students and fostering a culture of innovation. Participants gained a deeper understanding of the role of innovation in driving industry growth and competitiveness, as well as practical strategies for implementing innovative practices.

Through case studies, interactive discussions, and hands-on activities, students were equipped with the knowledge and skills to identify opportunities for innovation and develop creative solutions to industry challenges. The workshop not only expanded participants' perspectives but also instilled in them a sense of empowerment to contribute to innovation within their future careers. Moving forward, it is essential to build upon the momentum generated by the workshop and continue to provide opportunities for students to further develop their innovation capabilities. By innovation within educational institutions, we can prepare students to become effective innovators and leaders in the workforce.

## REPORT OF THE PROGRAMME

Date : 04.11.2022

**Name of the programme** : Full Stack Development Program:Research  
**Beneficiaries** : B.E Students [CSE II, III & IV YEAR]  
**No of participants** : 136  
**Date & Time** : 04.11.2022 (Friday)& (9.30a.m to 4.30 p.m)  
**Resource Person** : Dr.Sudha,  
Professor,  
Thiagarajar College of Engineering,  
Madurai.  
**Programme Co-ordinator** : Dr.K.R.Premalatha ASP/CSE & R&D Co-ordinator

The Research and Development department of Pandian Saraswathi Yadav Engineering College organized a seminar on **Full Stack Development Program:Research** on **04.11.2022**. The session was led by Dr.Sudha., Professor, serving as the key note speaker for the event. The Full Stack Development Program is designed to equip participants with comprehensive skills spanning both front-end and back-end development, enabling them to create fully functional web applications. This report outlines the structure, curriculum, outcomes, and potential impact of the program. The seminar on “**Full Stack Development Program:Research**” provided a comprehensive platform for researchers, engineers, and students to exchange knowledge, insights, and best practices in this specialized field. The Full Stack Development Program serves as a vital pathway for individuals aspiring to pursue a career in web development. By providing comprehensive training in both front-end and back-end technologies, the program equips participants with the skills and knowledge needed to thrive in today's dynamic tech landscape. With its potential to produce highly skilled professionals and drive innovation, the program plays a crucial role in shaping the future of the tech industry.

It is pleasure to inform you that the Research and Development cell has planned to conduct seminar on "*Emerging Trends in Building Information Modeling (BIM) Research Methodologies and Applications*" at 10.00 a.m to 1.00 p.m on 15<sup>th</sup> September 2022 with the aim of knowledge to students about The BIM methodology seeks to integrate processes and professionals involved in engineering tasks by working on platforms with coordinated and intelligent 3D virtual models. BIM has great potential for structural engineering companies (SEC) and solves their most salient problems. Characterized by the optimization of resources, flexibility, and adaptability, the methodology proposed for BIM implementation within SEC clearly and objectively identifies the resources and expectations of the organizations, sets out the requirements necessary to develop the BIM methodology, and provides practical and technical recommendations for planning and monitoring the implementation. Through this program the students can practice techniques to sharpen focus towards their reach goal so we kindly request you to grant us permission to conduct the program. The schedule and proposal of the program is enclosed with this letter for your kind perusal and permission. Kindly do the needful.

Thanking You,

### CIRCULAR

It is hereby informed that our college is going to conduct a program on 15.09.2022 in the topic of " Emerging Trends in Building Information Modeling (BIM) Research Methodologies and Applications " through R&D Cell. Through this program the students will develop new and emerging areas in engineering research and motive faculty and students to carryout research in those areas and help them to identify the funding agencies to support their research or projects. Final Year Civil students and staff members are expected to give their fullest co-operation towards the smooth conduction of program.
