Clean and green campus initiatives

GREEN CAMPUS INITIATIVE POLICY

“Every green tree is far more glorious than if it were made of Gold and Silver”.

A Green Campus is a place where environmentally friendly practices and education combined to promote sustainable and eco – friendly practices in the campus. The green campus concept offers an institution the opportunity to take the lead in redefining its environmental culture. Continuing to develop and implements the integrated green campus policy, our institute implement the following practices towards establishment and maintenance of the green campus.

This involves efforts to reduce and waste, conserve resources and maintain an ecological balance by:

- ❖ Conserving energy or shifting to renewable energy.
- ❖ Reducing waste or using biodegradable or reusable/recyclable Products.
- ❖ Transitioning too locally- sourced materials or eco-friendly delivery methods.

Through the creation of sustainable environmental solutions and the realization of our social responsibility to the environment, this initiative has given us the chance to redefine environmental culture and develop new paradigms. Everyone—students, faculty, and administrative staff—can contribute in some small way to the achievement of this goal. to encourage a sustainable environment. to keep everything hygienic and clean. to implement efficient cost-cutting measures. Raising awareness of diverse environmental challenges and their implications is the practice's goal.

Rain water harvesting

The collection of rainwater is a straightforward technique or system that collects, stores, transports, and cleans rainwater runoff from rooftops, parks, open spaces, and other surfaces in preparation for future use. By collecting rainfall and lowering storm water flow to minimize urban flooding, it lessens the risk of soil erosion and floods.

Solid waste Management:

Biodegradable solid waste

In PSYEC solid waste comprises of paper waste, food waste, dried leaves waste, vegetable waste. For disposal of paper waste an agreement has been signed with the company named. For the management of dried leaves waste a compost pit is constructed to convert a leaves waste into vermicompost which can be further used for generation of plant manure. The vegetables waste from food preparation is converted into bio gas with the help of. More than have been provided across the campus for collection of the further solid waste generated at different sources in college.

Non-biodegradable solid waste

For the disposal of non-biodegradable waste (tea cups, juice bottles) dustbins are provided across the campus. The dustbins are cleared in fortnight basis. An agreement has been made with Sivagangai Municipality to clear the non-biodegradable waste from time to time.

DEGRADABLE AND NON-DEGRADABLE WASTE BIN

The campus is cleaned on daily basis. Waste bins are placed in corridors, office and staff rooms. The waste generated in the campus includes wrappers, glass, metals, paper, etc. Old newspapers, used papers, files, etc. are given for recycling to external agencies. Glass, metals and other non-biodegradable wastes are given to external agencies where they are segregated and disposed/ recycled according to the nature of the waste. Non-biodegradable and plastic wastes are disposed by Municipal collection centre.
