The Director  
Centre for Academic Courses  
Anna University  
Chennai-60025

Respected Sir,

Sub: Submission of 2022-2023 feedback form various stakeholders related to our curriculum and syllabus-Reg

We are very much thankful to Anna University for considering most of our previous suggestion and incorporating them in the 2021 regulations and syllabus

We have received feedback from various stakeholders, including students, teachers, alumni and employers on how we can enhance the academic quality and identify gaps in the curriculum. We are pleased to inform you that most of our suggestions from the previous year have been incorporated in to the 2021- Regulations curriculum and syllabus. However, we still have a few recommendations that we would like to bring to your notice:

Suggestions related to curriculum and syllabus:

1. We have noticed that some recommended text books and reference books related to the new emerging domains are not available in the market. It would be helpful if alternative resources or materials could be provided in these cases.
2. We suggest that the most widely used and popular product specific technologies and tools such as Microsoft office, AWS, etc. be included in the syllabus to keep or students updated with the latest industry trends.
3. We also recommend adding some practical, relevant courses in the curriculum to help students acquire hands on experience and skills.
4. We also recommend including industrial visits as part of the curriculum to help students gain exposure to real world scenarios and understand the practical applications of the concepts they learn in the class room.
5. Provide FDP in the Advanced Technologies

This is for your kind information

Thank You

Yours Sincerely
